

SIA LANDSCAPING

About us

We at Sia Landscaping, believe in creating aesthetically pleasing, sustainable landscapes that blend our advanced knowledge of horticulture with innovation to suit your needs.

We strive to set benchmarks of quality and customer service in the industry through a deep commitment to customers. Our state-of-the-art nurseries containing a diverse range of plants enable us to support our projects with creative, practical and sustainable designs.

Our pursuit for excellence has enabled us to create and maintain picturesque landscapes at various prominent locations around the UAE. The passion of our senior management team is reflected in the personalized care and attention that each project receives, and this is well acknowledged and appreciated by all our clientele. Our dedicated and well-trained team of professionals will work along with you to provide a perfect solution for your landscaping vision.

The background of the entire page is a soft-focus photograph of pink bougainvillea flowers. The flowers are in various stages of bloom, with some showing bright yellow stamens. The overall color palette is a mix of soft pinks, light greens, and a pale, hazy sky. A thin, gold-colored rectangular border frames the central text area.

Our Nursery

We ensure that our plants are extensively cared for before being supplied to various projects. In fact, our nurseries host plants for at least a duration of six months with periodic checks to make sure that they are healthy.

We also house container grown trees that are regularly replanted to new, roomier containers to encourage and accommodate further growth. Sia also chooses the best plants in order to ensure that they blossom into strong trees that will adapt to the environment easily on being replanted.

A person wearing a high-visibility yellow-green vest with a logo and the text "SIA LANDSCAPING" is kneeling on a grassy area. The person is wearing a dark cap and light-colored pants. To the left, there is a tree with a white-painted trunk. The background is filled with dense green foliage. A semi-transparent green box is overlaid on the upper part of the image, containing the main title.

Our Strength is in Our People

Our team of professionals are skilled, driven and draw from about two decades of experience, strengthening the belief that our strength lies in our people. Our work culture emphasises and supports our professionals in achieving our mission of improving the world aesthetically and sustainably one project at a time and enhancing the urban outdoors, one green space at a time.

After the construction of walkways and pathways, our professionals engage in extensive trials to test plant species that are unique, sustainable and to the aesthetic quality of the space.
